Education

University of Colorado Boulder **Expected May 2027**

Master of Science in Finance | GPA: 3.5

- Upcoming coursework: Financial Statement Analysis, Financial Strategy and Decision Modeling, Applied Financial Management, Fixed Income Investing. Program covers roughly 70% of the CFA curriculum.

University of Colorado Boulder **May 2026**

Bachelor of Arts in Economics, Minor in Business

Skills

Finance & Analysis: Equity and Macro Research, Financial Analysis, Monte Carlo Simulation, Econometrics, Data Analysis

Technical: Microsoft Excel, Claude Code, Codex, Git/GitHub

Interpersonal: Team Leadership, Written Communication, Customer Service

Projects

Options Pricing and Volatility Surface Engine **givanchris.github.io/News/vol-surface.html**

- Used Claude Code to build a tool that prices options with Black-Scholes, binomial tree, and Monte Carlo models and calculates Greeks.
- Tool fits implied volatility surfaces to live option chains, updates during market hours, and publishes to a public page.

Portfolio Lab: Monte Carlo Simulator **givanchris.github.io/News/portfolio-lab.html**

- Used AI coding tools to build a factor-based simulator of portfolio outcomes across scenarios such as stagflation and rate shocks.
- Simulator includes tail-risk features such as stochastic volatility, price jumps, and fat-tailed shocks.

Fed Signal Tracker **givanchris.github.io/News/fed-signal.html**

- Track changes in FOMC language across 22 selected meetings from 2022 to 2026, alongside rate decisions and 2-year and 10-year Treasury moves.

Independent Company Research and Daily Market Brief **givanchris.github.io/News**

- Manage a concentrated personal portfolio of about 19 stocks across AI infrastructure, semiconductors, and energy, documenting the reasoning behind positions and reviewing single-name and customer concentration risk.
- Compared SK Hynix and Micron on forward earnings multiples, margins, and the timing of new high-bandwidth memory supply.
- Publish a daily market brief covering macro releases, Fed signals, and asset price moves.

Experience

Sales Associate, Sunglass Hut, Bellevue, WA **June 2025 – October 2026**

- Advised customers on products and processed transactions accurately while meeting sales targets.

Maintenance Manager, Mercer Island Beach Club, Mercer Island, WA **2018 – 2022**

- Maintained club facilities, supported large-scale events, and inventoried and sold concession items.

Leadership

Membership Development Vice President, Pi Kappa Alpha **December 2023 – December 2024**

- Oversaw onboarding of two new member classes totaling nearly 60 members and worked with chapter leadership on retention.
